Dear Mr Walker

Re: Acquisition & Development of Pinwherry School to be used as a Community Facility

As you know the Community Council previously expressed its support for the development of the old school as a community facility. This was based on the fact that the existing hall is no longer fit for purpose, has a deteriorating structure and lacks access & facilities for those with disabilities.

Since that time there has been a community survey where there were further expressions of support from members of the community.

With the passage of time the need for a fit for purpose community facility becomes all the more apparent & as such the Community Council as representatives of the community express their ongoing support for the proposal that the old school be brought into community ownership & developed as a community facility.

Yours sincerely

[REDACTED]

Dr Hal Maxwell
Pinwherry & Pinmore Community Council
