Subject: Pinwherry Asset Transfer

Good Evening

I would like to add my support for the Asset transfer. I have been involved in a number of groups who meet in the current Community hall. The groups I am involved with have all got older members who find it increasingly difficult to access the building due to the steps and there is no other way around this. There are no disabled facilities either. This building is now not fit for purpose and we now have the opportunity to have a building that will meet all the needs for young and old. This will be a great asset to the community for the future. We NEED a fit for purpose building.
