

To whom this may concern ,

I am writing to raise my concern and object to the potential take over of Muirhead activity centre by dundonald gymnastics club . As a parent my daughter uses this weekly for a dance class which is always busy and has also attended multiple birthday parties there all very recently . It is well used by various groups and for birthday parties and it would be a great loss to a great number of users and the local community . We also live in Barassie and the activity centre is the only place close by in the area for a lot of these groups to take place which is accessible to lots of people .

Like a lot of other people I have spoken to I think the centre should remain open for all current users and not used solely for the purpose of the one organisation who are not going to consider allowing current users to use it.

Regards ,
