It was noted that there had been a few minor arrests and there had been a thorough de-brief with partners on what went well and future planning.

A Member of the Panel enquired about the action to “Collaboratively develop and deliver Place Plans and other Place-based Strategies for town centres” which was shown at 50% progress and when it would be determined as complete. The Service Lead – Economy and Regeneration advised that it would be hard to monitor the percentage; as place plans were informed by communities, however, confirmed that work had been ongoing across various departments. including Thriving Communities and Planning.

The report reflected the statutory reporting categories required by the Scottish Public Services Ombudsman (SPSO) and included information on how services had improved following Stage 2 and Ombudsman complaints.

Having heard a Member of the Panel seek information on the parking strategy for the Ayr Show – Festival of Flight, the Director of Communities and Transformation advised that improvements had been made including the use of a parking management company for the car parks, alterations to the traffic management plan, and Transport Scotland remained within the Multi-Agency Control Centre for the duration of the day.

A Member of the Panel expressed concerns in relation to the Scottish Public Services Ombudsman Improvement Case regarding the delay of several years for a kinship carer and the Head of Children’s Health, Care and Justice Service explained that this had been a complex situation with the child’s best interests considered and apologies were made to the family for the failings.

Having scrutinised the contents of the report, the Panel

Environmental Information (Scotland) Regulations 2004 (EIRs) by subject matter and type of requester during the period 1 July 2023 to 30 June 2024.

A Member of the Panel requested information regarding FOIs received by MSPs/MPs and queried that if these came in a different format to an official FOI would this help to reduce the number of FOI requests; and the Co-ordinator – Registration, Records and Information advised that these enquiries often requested statistical information and that receiving these requests in the FOI format provided valuable timescales.

Having heard a Member of the Panel enquire as to how information was provided to the public and if improving this would reduce FOI requests, the Co-ordinator – Registration, Records and Information advised that requests increased regardless of information provided to the public domain, however, noted that the searchability could be improved and that this was being investigated.

Having scrutinised the contents of the report, the Panel

Decided: to request a further report to a future meeting of the Panel providing an update on the Council's FOISA/EIR performance during the period 1 July 2024 and 30 June 2025.

Following a query from a Member of the Panel in relation to the Ambition Programme Budget Summary and the overspend shown for this, the Assistant Director – Communities advised that the funds had been allocated as required and that the funds would require to be realigned from elsewhere in the Ambition Programme. A Member further enquired as to what the sum would amount to for rebalancing the overspend and the Assistant Director - Communities advised that a report containing the information regarding the budget would be provided.

A Member of the Panel requested information in relation to the 117 businesses that were seeking support to start in business, and how many of these received the support sought; and the Assistant Director – Communities advised that five businesses had started through the Ambition Programme and that many other businesses had been sign-posted on to other funding areas. There was submitted a report ([issued](#)) of 7 November 2024 by the Director of Housing, Operations and Development providing the Panel with an update on the Common Good Funds for Ayr, Prestwick, Troon, Girvan and Maybole.

A Member of the Panel expressed concerns regarding the rent received through the Common Good Fund in relation to the Ayr Show – Festival of Flight and the Service Lead – Asset Management and Community Asset Transfer advised that the rent had increased from 2023 to 2024 due to a larger space used and that the rent had been independently valued. The Director of Communities and Transformation further advised that the rent costs assisted with keeping the event free to attend and sub-letting the ground did not generate direct profit for the Council.

The Panel

Decided:

- (1) to note the current financial position of Ayr Common Good Fund, Prestwick Common Good Fund, Troon Common Good Fund, Maybole Common Good Fund and Girvan Common Good Fund as highlighted in Appendix 1 to the report;

A Member of the Panel requested information on what work had been delivered involving the three authorities (East, South and North Ayrshire) and the Assistant Director – Communities advised that partners and authorities reflected Ayrshire working collaboratively, for example - jobs supported within the Aerospace Sector by South Ayrshire Council were beneficial to the wider region. This was also the case for life sciences in North Ayrshire and manufacturing in East Ayrshire Council areas. It was advised that a report would be provided in the future to highlight ARES progress.

Having heard a Member of the Panel seek information on how the ARES related to the Ayrshire Growth Deal, the Assistant Director – Communities advised that the Ayrshire Growth Deal aimed to drive economic growth which had been beneficial to the wider Ayrshire.
