1.Members are supported to deliver good decision making through training and briefings. Officers in conjunction with Members felt that Members would benefit from further training on scrutiny and two training sessions were delivered on scrutiny of business cases by the Improvement Service. Both new and more experienced Members of the Service and Performance and Audit and Governance Panels felt this improved their understanding of scrutiny. A & G Panel also undertook a self-assessment and officers are implementing the recommendations identified by the Panel. Specific recommendations were previously made for one-to-one meetings with Members to assess training needs and produce an individualised plan. These take place by request from Members utilising the Improvement Service's Political Skills Self- Assessment tool and this allows Members to consider particular areas that they would benefit from training on. Further steps are being taken by the leads of Democratic Governance and Organisational Development to analyse this process and to fine tune the personal development process for Members. Members' briefings are available online and group officers encourage Members to access these, as well as maintaining records on uptake for future audit purposes. (June 2024)		95%

| Ownership	Potential Risk	Cause	Potential Effect	Risk Score	Current Mitigations
Accountable – ELT Responsible – CLT Risk Owners; Service Leads – Performance, Community Planning and Sustainability, Asset Management (buildings) and Neighbourhood Services (for Fleet)	There is a risk of failure to meet climate change duties, reduce emissions and support the community to adapt and mitigate risks in relation to climate change. Risk of failure to ensure a just transition and a green recovery.	Services do not necessarily recognise the role they need to play, lack of input and accountability by services leaving key areas inadequately addressed. Decisions and infrastructure while meeting short term goals are currently not fit for the future. Actions in place are currently not fully coordinated across services.	Reduction in emissions not achieved to 1.5 degrees scenario therefore accelerating the pace of climate change. United Nations Sustainable Development Goals not adequately addressed. South Ayrshire may not be resilient. Effect may be further detriment to those already disadvantaged, increasing inequalities and exacerbating deprivation. Communities may be unprepared for a low carbon future.	 **4 x 3 = 12**	1. Council approved Sustainable Development and Climate Change Strategy 2. Baseline data on Sustainable Development and Climate Change now assembled to allow future progress to be measured. 3. Proposals endorsed by the MOWG agreed at Cabinet and assigned for implementation. 4. Carbon budgeting in place. 5. Green recovery communications plan and climate literacy training plan in place. 6. Pan Ayrshire Energy Masterplan to be completed by 31st October 2024.

Proposed Mitigations (with dates)	Status	Progress Bar
1. Fully implement Climate Change Strategy (target date 2024, at which point strategy will be reviewed). Review to be pursued to ensure delivery of strategy outcomes in a changed landscape with increased national targets and new duties and supporting the new Local Outcome Improvement Plan (LOIP) which was approved in April 2024. In addition, there has been a new Scottish Government template released in draft form for all Scottish Local Authority Climate Change Strategies. The Co-ordinator will meet with key Service Leads spring time to agree their new targets and actions in relation to the template (along with a wider consultation process) which will form the basis of the refreshed strategy which will be published during 2025 (revised to Dec 2025).	⚠️	55% *Increased from 50%*
2. Review the means of 'cross cutting' the Strategy by embedding within Council policy making, as well as service planning. This is now going forward as part of the integrated impact assessment led by Performance, Policy and Community Planning with further climate literacy and service planning work required and likely to be included in the refreshed strategy. (Revised to Dec 2024). Full roll-out of the Integrated Impact Assessment (IIA) (following a test phase) was approved by Cabinet on the 25th September 2025 and is now being used across the Council. Briefing sessions were provided for staff. All completed IIAs and Summary Reports (along with guidance documents) can be accessed on a sharepoint site.	✔️	100% *Increased from 50%*
3. Investigation of scope 3 accounting methodologies for Council procurement emissions to develop existing carbon budgeting process. A final decision on this has been deferred pending the outcome of national research. Consultation has now been undertaken by Scottish Government on scope 3 reporting. We aim to build the outcomes into our forward pathway to be set out in refreshed strategy. (Revised to December 2024)	⚠️	30% *No change*
4. A Net Zero Estate Strategy review was completed in November 2021. Following this a Net Zero Board group was established in 2022 to drive forward this agenda. The Board has 6 agreed workstreams (noted in Cabinet log) and progress is being against each of these in order that the Council can meet both its own and SG's commitment to 'net zero' in 2045 (ongoing to 2045)	▶️	*Ongoing*
5. Adopt fleet decarbonisation strategy in line with targets and duties alongside ULEV (Ultra Low Emission Vehicles) infrastructure for both fleet (SAC) and public charging (ARA). Current position on small SAC vehicles reflects a position where 60 of 80 are now electric. NS continue to implement charging points for staff access and are investigating a charging 'hub' at a location within the vicinity of County Buildings. Ongoing progress is captured as part of Service Plan Improvement Action for NS and forms part of Service Plan Performance Reports to Council.	▶️	70% *Increased from 50%*
6. Local Heating Energy Efficiency Strategy (LHEES) strategy has been approved in Sept 2024 by South Ayrshire Council. An action plan has been undertaken. Post funded by Scottish Government for 5 years (up to 2028) to support this strategy.	▶️	10% *No change*
