

LAND REFORM (SCOTLAND) ACT 2003

TEMPORARY CLOSURE OF CORE PATH SA29: ALLOWAY TO DUNURE ROAD CYCLE ROUTE (CORANBAE PLACE TO DUNURE ROAD SECTION)

The Council gives notice it intends closing temporarily, to the public, that section of Core Path SA29: Alloway to Dunure Road cycle route described in Part 1 of the Schedule below. Temporary closure of the Path is necessary to permit the relocation of Scottish Water mains, to facilitate the construction, by the Ayrshire Roads Alliance, of a cycle underpass under the A719 on Dunure Road, in accordance with planning permission granted.

The affected section of the Path will be closed for the duration of the works, which are expected to commence on **24 May 2021** and last for approximately **2 weeks**. On completion of the works, the Path will be fully re-opened to the public.

Persons wishing to access Dunure Road or National Cycle Route 7, to the west of the closed section of SA29, or the section of SA29 to the east of the closed section, during the period of the works should follow the signposted diversion route described in Part 2 of the Schedule below.

For their own safety and the safety of the contractor undertaking the works, members of the public should not attempt to access the closed section of the Path during the specified period.

The plan below shows the section of the Core Path to be closed temporarily, together with the signposted diversion route.

SCHEDULE

PART 1 - PATH TO BE CLOSED TEMPORARILY

That section of Core Path SA29 (Alloway to Dunure Road cycle route) between the west side of its junction with the Coranbae Place link path to the A719 on Dunure Road.

PART 2 - ALTERNATIVE ROUTE

Persons wishing to access SA29 to the east of the closed section, from National Cycle Route 7 (Core Path SA1) or Dunure Road, should proceed north-eastwards along Dunure Road to the roundabout forming its junction with Cumbrae Drive and Browncarrick Drive; then southward and south-westwards on Browncarrick Drive, to its junction with Crossburn; then south-eastwards on Crossburn to its junction with Newark Crescent; then north-eastwards on Newark Crescent to its junction with Corserine Road; then south-eastwards on Corserine Road to its junction with Coranbae Place; then south-westwards along Coranbae Place and the link path at its south-western end to SA29. Persons wishing to access Dunure Road and National Cycle Route 7 (Core Path SA1) from SA29 to the east of the closed section should proceed in the opposite direction.
