Books of Remembrance Masonhill Crematorium

A Book of Remembrance is displayed in a cabinet at the Crematorium and provides a permanent form of memorial to those commemorated within. The book consists of four volumes which are handmade, bound in vellum and richly hand-tooled and blocked in pure gold. There is one page for each day of the year, and the book is opened each day at the appropriate page so that entries may be seen on the anniversary of the date the inscription is recorded.

The addition of motifs and emblems help make this memorial, which is in perpetuity, a unique statement about the life of a loved one. Many subjects including hobbies, interests, badges and flowers may be illustrated. The inscription may be placed on any date which is meaningful to you.

Every inscription is hand written and painted by one of a small team of skilled artists, each of whom

have undergone extensive training in the disciplines necessary to work to the exacting standards required.

Lettering carried out by craftsmen, offers the same degree of permanence as the best examples of mediaeval manuscripts. Each inscription is embellished with a raised gold initial letter, gilded with gold leaf, and finally burnished.

In addition to the Book of Remembrance, **Memorial Cards** are available. These are suitable for sending to distant relatives and friends who may be unable to visit the Crematorium or to provide a family keepsake and may contain the same inscription as in the book, or, alternatively, you may choose to create a more personal inscription.

Staff are available at the Crematorium to offer information and assistance. Please feel free to contact them for assistance in composing your inscription.

Completed application forms should be received by the authority within six months from the date of death, so that the inscription may be seen on the first anniversary.
