15 June 2022

To:- **Councillors Shields (Chair), Bell, Cochrane, Cullen, Scott and Weir**

All other Members for INFORMATION ONLY

Dear Councillor

SERVICE AND PERFORMANCE PANEL

You are requested to participate in a meeting of the above Panel to be held **on Tuesday, 22 June 2022 at 2.00p.m.** for the purpose of considering the undernoted business.

This meeting will be held on a hybrid basis for Elected Members, will be live-streamed and available to view at <https://south-ayrshire.public-i.tv/>

Yours sincerely

CATRIONA CAVES
Head of Legal, HR and Regulatory Services

B U S I N E S S

1. Declarations of Interest.
2. Action Log and Work Programme (copy herewith).
3. Local Government Benchmarking Framework 2020/21 - Submit report by the Assistant Director – People (copy herewith).

For more information on any of the items on this agenda, please telephone Andrew Gibson,
Committee Services on at 01292 612436, at Wellington Square, Ayr or

Webcasting

Please note: this meeting may be filmed for live and subsequent broadcast via the Council's internet site. At the start of the meeting, it will be confirmed if all or part of the meeting is being filmed.

You should be aware that the Council is a Data Controller under the Data Protection Act 2018. Data collected during this webcast will be retained in accordance with the Council's published policy, including, but not limited to, for the purpose of keeping historical records and making those records available via the Council's internet site.

Generally, the press and public will not be filmed. However, by entering the Council Meeting, you are consenting to being filmed and consenting to the use and storage of those images and sound recordings and any information pertaining to you contained in them for webcasting or training purposes and for the purpose of keeping historical records and making those records available to the public. In making use of your information, the Council is processing data which is necessary for the performance of a task carried out in the public interest.

If you have any queries regarding this and, in particular, if you believe that use and/or storage of any particular information would cause, or be likely to cause, substantial damage or distress to any individual, please contact Committee.Services@south-ayrshire.gov.uk

South Ayrshire Council

**Report by Assistant Director - Place
to Service and Performance Panel
of 22 June 2022**

Subject: Local Government Benchmarking Framework 2020/21

1. Purpose

- 1.1 The purpose of this report is to update Panel on the publication of the Local Government Benchmarking Framework (LGBF) data for 2020/21 and for it to consider where scrutiny of this information can help drive improvement.

2. Recommendation

2.1 It is recommended that the Panel:

- 2.1.1 reviews the data and accompanying summary report within Appendix 1; and**
- 2.1.2 confirms areas that may benefit from further scrutiny.**

3. Background

- 3.1 The LGBF is a high-level benchmarking tool which allows local authorities to compare their performance across a wide range of key service areas such as education, environmental services and adult social care. The framework is based on overall service groupings which cover the major public-facing services provided to local communities and the support services necessary to do that:

- Children's services;
- Adult social care;
- Culture and leisure services;
- Environmental services;
- Corporate services;
- Housing services;
- Economic development and planning; and
- Financial sustainability.

- 3.2 While a useful tool for beginning conversations around performance, the Improvement Service highlight that the LGBF data should not be considered in isolation but rather be used as starting point for more in-depth scrutiny of performance.

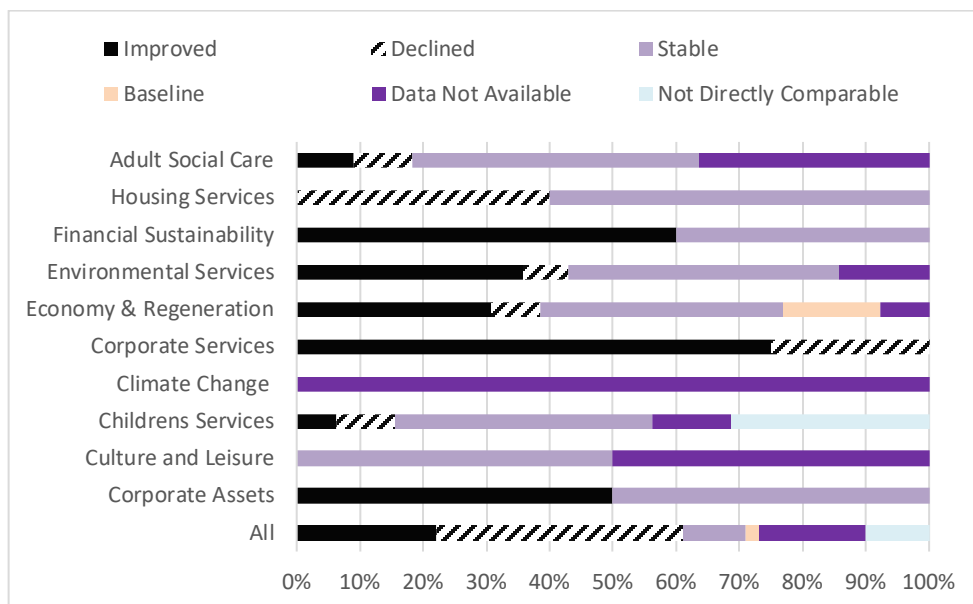

- 3.3 The directional arrows in Appendix 1 indicated the trend over two years (long-trends). Short-trends based on year-on-year changes are shown in values recorded.
- 3.4 The Improvement Service has produced a National Benchmarking Overview Report for 2020/21 that can be accessed [here](#).
- 3.5 As highlighted in the [Audit Scotland Best Value Assurance Report](#) published 27 October 2021 (paragraph 34) it was recommended that targets are set to improve performance. Targets allow significant variations in performance to be identified and acted upon. However, targets should not be looked at in isolation as they are only one aspect of performance and do not show whether specific objectives have been achieved.
- 3.6 Given the unprecedented effect of the pandemic, it has been difficult to set meaningful targets based on past performance for some service areas. The performance team will work closely with services over the coming year to consider future meaningful targets based on available resources.

4. Proposals

- 4.1 South Ayrshire's data is presented in Appendix 1 by theme. While Service and Performance Panel will have already scrutinised the majority of this data, Appendix 1 allows for comparison with other local authorities in our family group alongside commentary from the responsible officer.
- 4.2 It should be noted that, as this report covers the period impacted by the COVID pandemic, direct comparison on performance in previous years or with other councils for some measures, is not possible. In addition, there is a cautionary note in many areas due to the impact of COVID.
- 4.3 It should also be noted that the information should be used with caution bearing in mind this is only one source of evidence relating to the Council's performance.
- 4.4 Overall, the data suggests that 22% of the measures have improved, 10% have remained stable and 39% have declined:

	Total Number of Indicators	Improved	Stable (less than 1 pp change)	Decline	Baseline	Data not available	Not directly comparable
All Services	100	22	10	39	2	17	10

Breakdown by Framework Area:

4.5 Officers have provided commentary on each measure within Appendix 1 to help provide context and highlight where improvement activity is planned or already underway.

5. Legal and Procurement Implications

5.1 There are no legal implications arising from this report.

5.2 There are no procurement implications arising from this report.

6. Financial Implications

6.1 Not applicable.

7. Human Resources Implications

7.1 Not applicable.

8. Risk

8.1 *Risk Implications of Adopting the Recommendations*

8.1.1 There are no risks associated with adopting the recommendations.

8.2 *Risk Implications of Rejecting the Recommendations*

8.2.1 Rejecting the recommendations may impact on the reputation of the Council.

9. Equalities

9.1 The proposals in this report allow scrutiny of performance. The report does not involve proposals for policies, strategies, procedures, processes, financial decisions and activities (including service delivery), both new and at review, that

affect the Council's communities and employees, therefore an equality impact assessment is not required.

10. Sustainable Development Implications

- 10.1 **Considering Strategic Environmental Assessment (SEA)** - This report does not propose or seek approval for a plan, policy, programme or strategy or document otherwise described which could be considered to constitute a plan, programme, policy or strategy.

11. Options Appraisal

- 11.1 An options appraisal has not been carried out in relation to the subject matter of this report.

12. Link to Council Plan

- 12.1 The matters referred to in this report contribute to delivery of all of the Council's strategic objectives and all of the strategic outcomes.

13. Results of Consultation

- 13.1 There has been no public consultation on the contents of this report.
- 13.2 Consultation has taken place with Councillor Martin Dowey, Portfolio Holder for Corporate and Strategic, and the contents of this report reflect any feedback provided.

LGBF Reporting 2020 21 - By Framework Area

1 Children's Services

CHN01 LGBF Cost per primary school pupil £		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Quality Improvement Manager	<p>Since 2018/19 there has been an 16.3% increase in the cost per pupil compared with 16.7% in the family group and 12.6% nationally. The growth in education spend in recent years largely reflects the teachers' pay award and additional monies received from central government via the Attainment Scotland Fund. Targets are provided but will be affected by policy decisions, pay awards and inflation.</p>
	2018/19	£5,312		£5,066	£5,237				
	2019/20	£5,710		£5,438	£5,599				
	2020/21	£6,179		£5,914	£5,897				
	2021/22		£6,500						
	2022/23		£6,825						
	2023/24		£7,165						

CHN02 LGBF Cost per secondary school pupil £		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Quality Improvement Manager	<p>Since 2018/19 the cost per pupil has increased by 12% compared with 7.9% for the family group and 6.6% nationally. The secondary school rolls increase by approximately 300 during this period. As a result of the increasing roll Pupil Equity Funding has increased – in some cases by almost 50% in secondary schools during this time. This has led to an increase in support staff roles. Some secondary schools have school-based counsellors directly employed by schools. During COVID we have significantly increased the staffing available to schools with as much of this resource as possible being directly allocated to HTs to allow them to make decisions on how best to use funds to meet local needs.</p>
	2018/19	£6,769		£6,940	£7,157				
	2019/20	£7,031		£7,191	£7,538				
	2020/21	£7,584		£7,487	£7,629				
	2021/22		£8,000						
	2022/23		£8,400						
	2023/24		£8,820						

CHN05 LGBF Percentage of pupils gaining 5+ awards at level 6		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	 Not comparable	Quality Improvement Manager The absence of external assessment information in 2020 and 2021 led to grades awarded being based on teacher estimates. These results are therefore not directly comparable with previous years. Any change between the attainment levels of the 2019/20 and 2020/21 cohorts and those of previous years should therefore not be seen as an indication that performance has improved or worsened without further evidence. The data for sessions 19/20, 20/21 and 21/22 is based on 3 different models of certification. As such, and with forthcoming plans to reform the SQA, it would not be appropriate to set targets.

	2022/23								The data for sessions 19/20, 20/21 and 21/22 is based on 3 different models of certification. As such, and with forthcoming plans to reform the SQA, it would not be appropriate to set targets.
	2023/24								

CHN08a LGBF The gross cost of "children looked after" in residential based services per child per week £		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Interim Chief Social Work Officer	We have a number of early intervention initiatives implemented at the moment. Such as Belmont Family First, Small Steps , Intensive Family Support , Family Functional Therapy and the SOS approach . Emergent data shows a positive impact on child becoming looked after and accommodated and children and families becoming involved with services on a statutory basis. At this point we would like to consolidate these projects to inform further investment.
	2018/19	£3,725		£3,678	£3,831				
	2019/20	£3,137		£4,063	£3,853				
	2020/21	£3,268		£4,484	£4,380				
	2021/22		£3,500						
	2022/23		£3,750						
	2023/24		£4,000						

CHN08b LGBF The gross cost of "children looked after" in a community setting per child per week £		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Interim Chief Social Work Officer	Our ambition to reduce the use external placements has been a rise in work to support and sustain kinship placement. Kinship placement on average cost circa £820 per month compared to both external foster care at circa £4250 and residential placements £22500 per month. Therefore, the cost is overall more efficient, and savings can be used to provide support to maintain and support internal placements.
	2018/19	£351		£339	£343				
	2019/20	£432		£346	£350				
	2020/21	£490		£377	£382				
	2021/22		£540						
	2022/23		£600						
	2023/24		£660						

CHN09 LGBF Percentage of children being looked after in the Community		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Interim Chief Social Work Officer	We are in line with the family group and national averages. It is our policy, where possible, to place children and young people in

CHN14a LGBF Literacy Attainment Gap (P1,4,7 Combined) - percentage point gap between the least deprived and most deprived pupils								Quality Improvement Manager	The pandemic has disproportionately impacted on those living in poverty. Whilst attainment for all has declined over the past two years as a direct result of the disruption to learning caused by COVID the gap has closed. Whilst this may be viewed positively it should be noted that attainment for all declined during this stage of the pandemic. Achievement of Curriculum for Excellence Levels (ACEL) data gathered and reported in June 2021 should be viewed in the context of the significant disruption experienced across schools during that time. Ongoing tracking during term 1 and 2 of this session indicates an improving picture and a return to pre-pandemic attainment levels remains a focus. The opportunity to fully assess progress and make use of a range of assessment tools to understand any gaps in children's learning continues to drive improvements in this area.

	2022/23								
	2023/24								

SW07 LGBF Proportion of care services graded good or better								Head of Community Health and Care Services (HSCP)	This measure has continued to deteriorate over the last 3 years. Despite a new Head of Policy Planning and Performance having been appointed and the Commissioning team having refocussed with a number of services being recommissioned during 2021 with a focus on quality the proportion of services rated as good has continued to fall. This is in part due to the workforce challenges in recruiting and retaining staff across the care sector. The Community Oversight Group established to support our response to COVID has established a Quality Assurance Framework and provides oversight of quality assurance across commissioned services with the aim of supporting homes that are struggling in the short term and improving quality in the long term. Given the uncertainty around inflation, workforce recruitment issues etc. target setting at this time would not be appropriate
		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs

2023/24									

SW08 LGBF Number of days people spend in hospital when they are ready to be discharged ,per 1,000 population (75+)								Head of Community Health and Care Services (HSCP)	During 2018/20 financial recovery measures were put in place to balance the budget with a consequent reduction in the number and size of care packages being delivered. This led to a rapid increase in delayed discharges. During 2020/21 we implemented a range of improvements and invested over £1m in reablement and £0.25m in our responder service which reduced the number and length of delays significantly by May 2021. Since May 2021 recruitment and retention workforce challenges have led to a reduction in the capacity within care at home and care homes, resulting in a significant increase in the number of people and the length that they wait.

5 Economic Development & Planning

ECON01 LGBF Percentage of unemployed people assisted into work from Council operated / funded Employability Programmes		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Service Lead – Thriving Communities	The drop from 2019/20 to 2020/21 is due to Covid as employability programmes paused during the pandemic. Although officers supported clients there was limited opportunities for progression. South Ayrshire Councils data is 7.9% compared to 6.0% Scottish average and this evidences the significant improvements and progress in employability in South Ayrshire.
	2018/19	7.0%		12.0%	12.6%				
	2019/20	19.6%		14.7%	12.7%				
	2020/21	7.9%		6.5%	6.0%				
	2021/22		13.0%						
	2022/23		13.5%						
	2023/24		14.0%						

ECON02 LGBF Cost of Planning and Building Standards Services per planning application		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Service Lead Planning and Building Standards	The relationship between the cost of delivering the Planning and Building Standards Service (PBS) and the number of planning applications has been influenced by a number of significant factors, such as the limited growth in the economy during the pandemic as well as the revision of staffing arrangements within the PBS Service which has resulted in a number of vacancies and hence reduction in staff costs. It is difficult to predict how the pandemic and Brexit will
	2018/19	£7,615		£4,861	£4,443				
	2019/20	£5,647		£5,100	£4,440				
	2020/21	£6,759		£5,771	£5,068				
	2021/22								

ECON05 LGB F No of business gateway start-ups per 10,000 population		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Service Lead – Economy and Regeneration	<p>The COVID-19 pandemic disrupted business start-up activities across Scotland as seen in 2020/21 figures. South Ayrshire continue to track higher than national and family group averages.</p> <p>Given the major economic disruption caused by the pandemic, we have set provisional stretch targets until a baseline can be established. These will be tested during 2022/23 and reviewed as necessary.</p>
	2018/19	21		18.4	16.7				
	2019/20	20.7		19.5	16.4				
	2020/21	11.9		11.4	11.2				
	2021/22		12						
	2022/23		15						
	2023/24		20						

ECON06 LGBF Cost of Economic Development & Tourism per 1,000 population		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↑	Co-ordinator – Destination, Promotion and Inclusive Participation	<p>The cost per 1,000 of the population has increased . It is below the national average of £87,793.</p> <p>During the reporting period a restructure took place with a commitment to developing a tourism and events strategy and a new 'Destination South Ayrshire' approach to tourism to support the industry, particularly around COVID recovery.</p> <p>The Destination South Ayrshire site is now live and tourism businesses can list on the site free of charge. The Tourism and Events strategy has now been approved and implementation has begun, including a fund to support events, tourism, culture and heritage initiatives.</p>
	2018/19	£59,796		£59,552	£107,387				
	2019/20	£61,602		£62,932	£102,811

ECON09 LGBF Town Centre Vacancy Rates		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Co-ordinator – Destination, Promotion and Inclusive Participation	This measure has increased by 1% and our vacancy rates are slightly higher than the family group and national average. Retailing across the country has been struggling for some time and Ayr is not immune, with the Covid pandemic further exacerbating the issue. The Council has been supporting existing businesses and owners of vacant properties through the shopfront scheme that ran throughout 2021 and early 2022, this provided needed investment in improving the fabric of properties in private ownership. Economy and Regeneration is continuing to work with Sustrans to develop a project that will improve the accessibility of the town centre for pedestrians and cyclists, while also improving the look and quality of the public realm on the main streets. In
	2018/19	18%		11%	10%				
	2019/20	16%		11%	12%				
	2020/21	17%		12%	12%				
	2021/22		15%						
	2022/23		15%						
	2023/24		14%						

ENV01a LGBF Net waste collection cost per premise		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Service Lead – Neighbourhood Services	The net cost of collections has reduced in year 2020/21. This figure will include all additional costs relating to Covid 19 which will vary from authority to authority. Throughout the pandemic we have provided a full service, enhanced by additional employees and vehicles throughout to allow for socially distanced work practices. We have worked with colleagues in Finance and undertaken budget rationalisation works with regards to coding which should provide a more accurate figure from year 2021/22 for the cost for the collection per premise.
	2018/19	£78.85		£67.02	£67.21				
	2019/20	£87.23		£67.72	£68.82				
	2020/21	£84.37		£71.75	£72.35				
	2021/22		£87.53						
	2022/23		£104.50						
	2023/24		£106.50						

ENV02a LGBF Net waste disposal cost per premise		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↑	Service Lead – Neighbourhood Services	The net cost of disposal is directly linked to the increase in price per tonne for disposal as part of the landfill diversion contract, a price increase in the treatment of recyclates and an increase in residual waste throughout the period of the pandemic.
	2018/19	£91.97		£88.94	£97.37				
	2019/20	£80.33		£86.78	£98.76				
	2020/21	£85.81		£92.11	£104.50				
	2021/22		£88.59						
	2022/23		£93.02						
	2023/24		£97.67						

ENV03a LGBF Net cost of street cleaning per 1,000 population £		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs	↓	Service Lead – Neighbourhood Services	Between 2017/18 - 2019/20 there was a significant reduction in the amount of street cleaning undertaken due to reallocation of resource from this area to support increased demand for household waste uplift. This was addressed with the creation of additional posts in 2020, however these positions were not filled until January 2021 due to the pandemic. With this additional resource the increase in the net cost of street cleansing should be more in line with the national average for financial year 2021/22.
	2018/19	£7,375		£12,884	£14,840				
	2019/20	£9,120		£12,689	£15,230				
	2020/21	£11,691		£13,255	£14,845				
	2021/22		£13,255						
	2022/23		£13,917						
	2023/24		£14,612						

ENV03c LGBF Street Cleanliness Index - Percentage Clean							↑	Service Lead – Neighbourhood Services	As noted on last year's data there was a significant drop in score between 2017/18 - 2019/20 which reflected the reduction in the actual time we spent street cleaning during that period. Contributing to this reduction has been the addition of 6,685 households to the waste collection service between 2013-19. During this period there had been no additional resource for the collections which resulted in street cleansing supplementing the refuse collection service to ensure household waste collections are carried out within agreed timescales. To address this Council approved additional posts for the service during last year's budget process. Due to Covid 19 these posts were not filled until late 2020 however we have saw an increase in street cleanliness which now sits just 0.3% below the national average.
		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs			
	2018/19	89.2		81.5	92.8				
	2019/20	84.1		79.7	92.2				
	2020/21	89.8		80.6	90.1				
	2021/22		90.0						
	2022/23		91.0						
2023/24		92.0							

ENV04a LGBF Cost of maintenance per kilometre of roads (Capital & revenue costs)							↑	Head of Roads	The cost of maintenance per kilometre of roads (capital and revenue cost) will vary year on year depending on the capital and revenue budget expenditure on roads maintenance. A one year target has been set because it is difficult to predict costs due the current weekly increases of oil-based products.
		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs			
	2018/19	£9,078		£9,797	£9,919				
	2019/20	£6,158		£9,110	£9,707

C&L03 LGBF Net cost per visit to museums and galleries		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Co-ordinator – Destination, Promotion and Inclusive Participation	The cost per visit has increased, this is due to closures as a result of COVID 19 restrictions. However, our cost per visit is well below both the national average and the family group average. 60,644 visits were recorded during the reporting period which is a reduction of 22,148 from the previous year. During closures there we facilitated active online engagement around the collection and exhibitions.

	2019/20	3.4%		6.1%	7.3%			<p>households and providing advice and information to mitigate the financial impact and hardship experienced by households because of Covid-19. Our Revenue, Arrears and Support Team actively reached out to tenants, ensuring early intervention and the provision of support to tenants in arrears and tenants requesting advice.</p> <p>Our staff team provided budgeting advice and assisted tenants to apply for discretionary housing payments where appropriate. If additional advice or support was required, referrals continued to be made to the Council's Advice and Information Hub, for Money Advice or Benefits Advice and we referred tenants to our contracted housing support providers where ongoing support needs were identified.</p> <p>In addition to dealing with the impacts of Covid-19, the team also managed the increased number of tenants applying for Universal Credit (UC), verifying housing costs and supporting tenants to make claims. As at 31st March 2021, 2507 current tenants were known to the Council to be in receipt of Universal Credit. Where appropriate and in accordance with the DWP criteria, the Team continues to actively apply for Alternative Payment Arrangements (APA's) where vulnerability triggers exist, or the tenant has arrears or difficulty making their housing cost payments from their UC entitlement. APA's were in place for 1867 current tenants as at 31st March 2021.</p> <p>As a Council we continue to actively liaise with DWP Representatives and other partners to manage the impacts of UC and Covid-19.</p> <p>In 2020/21, gross rent arrears were £1,191,810 which was 3.8% of the rent due in the reporting year. This was an increase on £1,061,488 (3.4%) in 2019/20. Despite the increase of £130,322, the Council was the</p>

<p>HSN02 LGBF Percentage of council rent that was lost due to houses remaining empty (SHR)</p>						<p style="text-align: center;">↓</p> <p>Service Lead – Housing Services</p>	<p>The impact of Covid-19 restrictions had a significant impact on performance in relation to reletting empty properties in the 2020/21 reporting year. In the period March 2020 – June 2020, house moves were restricted, with only homeless households permitted to move. In addition, to manage and mitigate risks, new operating procedures and working arrangements were put in place, involving '72 hour wait periods' following keys being received from outgoing tenants, increased cleaning regimes and restrictions on the number of operatives who were able to work in vacant properties at any one time.</p> <p>Average relet times in 2020/21 were 51.4 days, an increase on 31.4 days in 2019/20. Because of the longer time taken to relet empty houses, there was a consequential increase in the loss of rental income for the Council. The percentage of rent lost for empty properties in 2020/21 was 1.2% (£368K) an increase on 1.0% (£305K) in 2019/20.</p> <p>Many of the restrictions around safer working arrangements and cleaning have remained in place throughout 2021/22. However, joint</p>

			<p>standard, 234 properties are earmarked for demolition and 5 properties are earmarked for disposal by the Council.</p> <p>Covid-19 restrictions had a significant impact on planned internal modernisation work with all planned work suspended during 2020/21. Programmes of modernisation work recommenced in late August 2021 and are underway during 2021/22.</p> <p>For 2021/22, the criterion for assessing and measuring SHQS compliance will be subject to further change, incorporating the new standards for fire and smoke detection and safe electrical systems.</p>
--	--	--	--

<p>HSN04b LGBF Average time taken to complete non-emergency repairs (SHR)</p>						<p style="text-align: center;"></p> <p>Service Lead – Housing Services</p>	<p>The impact of Covid-19 and associated restrictions meant that only 'emergency' repairs could be undertaken for a significant period of the 2020/21 reporting year. This led to a significant decrease in the number of reported 'non-emergency' repairs in this period. There was a total of 8,810 'non-emergency' repairs completed, taking an average time of 4.8 working days. This was down on the 15,908 'non-emergency' repairs completed in the previous reporting year 2019/20, with an average time taken to complete of 7.2 working days. Although the overall number of reported repairs in 2020/21 was down, the impact of restrictions did lead to an increase in the number of 'emergency' repairs. 14,519 (up by 2,169 repairs on 2019/20) were completed within an average of 2.47 hours a reduction on 2.53 hours in 2019/20.</p> <p>Although 2020/21 shows improved performance, it is recognised that this is not based on normal operating conditions and is not reflective of the normal level of repairs</p>	
		Value	Target	Family Group - Average	Scotland - Value			All Scottish PIs

10 Financial Sustainability

FINSUS01 LGBF Total useable reserves as a % of council annual budgeted revenue		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Service Lead – Corporate Accountancy	The increase in this ratio is mirrored across Scotland and reflects a significant jump in Usable Reserves to £59.9M (2019/20: £37.9M), due to the large Covid-19 funding underspends carried forward into 2021/22. Budgeted expenditure did not originally include this additional Covid-19 funding and
	2018/19	14.6%		14.63%	16.47%				
	2019/20	14.1%		14.75%	16.87%				

	2020/21	21.43%		22.31%	23.6%				consequently did not increase as significantly, to £279.6M (2019/20: £267.8M).
	2021/22								
	2022/23								
	2023/24								

FINSUS02 LGBF Uncommitted General Fund Balance as a % of council annual budgeted net revenue		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Service Lead – Corporate Accountancy	By excluding committed reserves (including approved Covid-19 support and recovery projects), this is a more reflective indicator of the Council's capacity to deal with the financial consequences of unforeseen circumstances. The Council's approved Financial Strategy is to maintain a level of uncommitted funds between 2% and 4% in line with best practice.
	2018/19	2.15%		3.2%	3.69%				
	2019/20	2.34%		3.4%	3.8%				
	2020/21	3.2%		3.87%	3.52%				
	2021/22								
	2022/23								
	2023/24								

FINSUS03 LGBF Ratio of Financing Costs to Net Revenue Stream - General Fund		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Service Lead – Corporate Accountancy	This ratio calculates the percentage of General Fund expenditure used to pay for financing costs, e.g. borrowing to support the capital programme. The Council's 2020/21 ratio is lower than that for 2019/20 - a positive sign - and is also lower than both the Council's 'family group' of comparable local authorities and the Scottish average.
	2018/19	6.03		7.94	7.88				
	2019/20	6.33		7.59	7.2				
	2020/21	6.11		6.57	6.24				
	2021/22								
	2022/23								
	2023/24								

FINSUS04 LGBF Ratio of Financing Costs to Net Revenue Stream - Housing Revenue Account		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Service Lead – Corporate Accountancy	This ratio calculates the percentage of HRA expenditure used to pay for financing costs, e.g., borrowing to support the Housing capital programme. Although the Council's 2020/21 ratio is slightly higher than that for 2019/20, it
	2018/19	10.31		19.42	22.83				

	2019/20	10.79		20.38	22.56				is significantly lower than both the Council's 'family group' of comparable local authorities and the Scottish average, which reflects a low reliance on borrowing to support investment in the Council's housing stock.
	2020/21	11.17		20.12	22.91				
	2021/22								
	2022/23								
	2023/24								

FINSUS05 LGBF Actual outturn as a percentage of budgeted expenditure		Value	Target	Family Group - Average	Scotland - Value	All Scottish PIs		Service Lead – Corporate Accountancy	Final net expenditure for 2020/21 was £272.9M (2019/20: £261.1M) as compared with the final budget of £297.2M (2019/20: £267.1M). The movement in both categories can be explained by additional Covid-19 funding, proportionately more of which was carried forward to be spent during 2021/22. Accordingly, the percentage of spend against budget in 2020/21 reduced when compared with the previous year, which explains the reduction in this indicator. Similar reductions were recorded for both the Council's 'family group' of comparable local authorities and also the Scottish average.
	2018/19	98.05%		99.13%	99.39%				
	2019/20	97.73%		98.78%	99.35%
