

South Ayrshire Community Planning Partnership Board

Report by Service Lead – Policy, Performance and Community Planning to
Community Planning Partnership Board Meeting of 27th October 2022

Subject: Community Planning Executive/SDP Chairs Executive Joint Workshop (4th October 2022)

1 Purpose of Report

- 1.1 The purpose of this report is to provide members of the Community Planning Board (CP Board) with an overview of the key discussion points and subsequent actions/decisions agreed at a joint workshop session that was held with the Community Planning Executive and SDP Chairs Executive on the 4th October 2022.

2 The Board is recommended to:

- 2.1.2 agree the next steps as highlighted in section 5 of the report with a further update on progress reported to the CP Board in January 2023.**

3 Background

- 3.1 On the 15th June 2022, the second annual review meeting of the CPP was held attended members of the CP Executive along with the Chair/Vice Chair and Lead Officer of all the groups currently operating including all our Strategic Delivery Partnerships, the Communities Reference Group and the Sustainability Partnership. At that meeting it was agreed:

3.1.1 to consider how the CPP can work using a locality-based model;

3.1.2 Await outcome of review of the localities is being carried out as part of a wider refresh of Locality Planning Partnerships (led by the Health and Social Care Partnership); and

3.1.3 To agree on governance on how the CPP works toward a locality model and present a proposal to the Community Planning Board in October following further engagement with the Community Planning Executive and SDP Chairs Executive.

4 Progress

- 4.1 The first in a series of follow up-workshops was held on the 4th October to begin the process of moving towards a locality-based model.

- 4.2 The first part of the workshop session focused on where we are already working in localities. An outline was provided by the Service Lead – Thriving Communities on the progress that has been made to implement a locality-based teams' model, and an update on the progress of South Ayrshire Health and Social Care Partnership move to locality-based working was also presented. Members then participated in a discussion session exploring where other community planning partners could fit into a locality model and what are the opportunities and challenges, particularly around staffing and resourcing. South Ayrshire Council will continue to explore with Elected Members.
- 4.3 The second part of the workshop session concentrated on our current CPP structure and the groups what sit within that structure. Discussion focused on what SDPs/priority areas should continue to be reported at a CP Board level? (national priorities, taking cognisance of statutory reporting requirements, South Ayrshire wide thematic priorities, identifying best practice and providing guidance), what priority areas could be broken up into localities? (such as the ongoing development of dementia friendly communities) and how this would impact our Local Outcome Improvement Plan (LOIP) going forward? (for example having area-based LOIPs for each localities reflecting local priorities potentially as part of a Local Community Plan). It was agreed that this would need to be reviewed further by the SDP Chairs and that a strategic needs assessment workshop session would facilitate this process (with an invite extended to all members of the SDPs).

5 Next Steps

- 5.1 As a result of the updates and discussion the following was agreed:
- 5.1.1 Engagement will take place with the SDP Chairs Executive at the next meeting of the group on 13th December to agree on a format for the strategic needs assessment workshop session.
- 5.1.2 Strategic Needs Assessment with SDP Chairs and members to be held in January 2023.
- 5.1.3 Following the Strategic Needs Assessment (SNA), a further workshop session will be held with the CP Executive and SDP Chairs Executive to examine findings from the Strategic Needs Assessment and identify the next stage of the route map.
